

To the Citizens of Dayton and Lyman, Maine along with those visiting our web site, I would like to personally take this time to invite you to explore our Department which is made up of 50 dedicated individuals who serve these two beautiful communities on a daily basis. This web site is new to us and our intention is to continue to make it more informational not only to our members, but to the public that we serve. I hope that you find any and all of the information that you are looking for and encourage you to not only surf our site, but to stop by our station for a tour. As always we are continually looking for new dedicated individuals to help serve our community and keep the act of volunteerism alive. If you feel as though you could be a benefit to your Department and your community please send us an email [recruiting@gmfd.org](mailto:recruiting@gmfd.org) or stop by the station to start the process. In closing, I am honored to serve you as your Departments ninth Fire Chief, if you have any questions please do not hesitate to contact me [chief@gmfd.org](mailto:chief@gmfd.org)
