

Goodwin's Mills Fire-Rescue

Created Date 09-06-07

Effective Date 09-06-07

09-06-07 Captain Johnston,

GENERAL ORDER 07-385

Subject:
Incident Address Data Collection

Remarks:
In order to meet the NFIRS standards the following updates have been made to the Address Section on the Incident Reports:

The fields have been somewhat rearranged to put the "Location Description" first, this will allow for an easier flow of required info

Street numbers are now required for every location except for Intersections

"Intersecting Street" field will now populate and be required if you so choose the Location Description as an Intersection
