

Goodwin's Mills  
Fire-Rescue

Created Date 11-20-07

Effective Date 11-20-07

11-20-07 Carpenter, H. Rodney

GENERAL ORDER  
07-390

Subject:

Rescue 6 Assignment

Remarks:

Effective December 1st, 2007 Rescue 6 will now be dispatched on back to back Medical Calls. Lieutenants are responsible to assure that their members are all capable of moving E2 in the event that there is a call for Rescue 6 that Engine 2 is not dispatched to.

It is the OIC's responsibility from the 1st call to notify Saco if they are sure that there are not enough resources to man the 2nd ambulance. I.e. If you are operating at a Structure Fire and all of your resources are committed you should notify Saco immediately to go to the next Ambulance. This same may hold true for daytime calls where a limited number of members are available. As we work closer to using the I AM RESPONDING program, this need will go away.
