Subject:  
SOG 2302/2401 Updated

Remarks:  
SOG 2302 Radio Frequency Management has been updated, please note the update includes frequency list as well as an operational change to include the need for every portable with the exception of the Incident Commander to be on Channel 2 once on scene.

SOG 2401 Apparatus Response has been updated to include optimal manpower numbers that are needed before an apparatus can respond. The flow chart will be posted in the bay for quick reference.
