CALLS LAST WEEK: 12

VT MAN HOURS LAST WEEK: 58

### • FROM THE FIRE CHIEF'S DESK:

- The committee formed by the Selectmen to make recommendations for capital improvements to the Fire-Rescue in near future has met twice and have begun to work on gathering data to eventually form a plan of action. It is still very early in the process, the committee has been officially named "Dayton-Lyman Fire Dept Advisory Committee", understand that this committee has no power to make any changes, but will merely make recommendations and be the driving force to accomplishing the goals that we all have. You may hear bits and pieces of there ideas as they are investigating the current situations around us, but be assured that the membership will be kept abreast of recommendations that are formalized. As of now there has been nothing more that good dialog amongst the committee. In the near future, we will begin posting the committee meeting minutes on the web site.

### • CAR 2'S COLUMN:

- 

### • CAR 3'S COLUMN:

- Dunkin Donuts Hydrant O.O.S.

### ➤ CAREER COMPANY: P-24 > CAREER CO.

- 

**DEPARTMENT TRIVIA QUESTION OF THE WEEK:**

What was the first Fire Truck to come with the white over red paint scheme?

Last Weeks Answer: Photo was taken by Jim Dore and the training building was 2 places north of the Fire Station on the same side of the street. In the fall of 1987, a Firefighter 1 class was put on in Goodwins Mills, the class picture hangs in the Training Office. Where was that photo taken and by who?

**TRAINING QUESTION OF THE WEEK:**

Upon arriving on scene, all portables should be put on what channel, with the exception of the Incident Commander?

Last Weeks Answer: Cold Smoke refers to the steam and smoke that is present from a fire that has been mostly extinguished. Ie. from a sprinkler system. This smoke will present itself as a light color and will hug the ground rather than rising to the highest point. (FF Pelletier go it)

What does the term "COLD SMOKE" refer to?
